

The Monthly COLUMN™

The Benefits of Using WorthingtonCast™ Fiberglass Columns

When it comes to adding beautiful architectural columns to your home, or renovating an existing project, you are faced with many important decisions. Finding that timeless look is a balance of choosing the right column style along with the perfect capital and base combination. In addition to aesthetics, you must also consider which type of column material is best for your application. In this month's edition of The Monthly Column™, we will look at some specific advantages of choosing WorthingtonCast™ Fiberglass Columns.

Build your own custom columns on our website using our exclusive Column Builder Tool!

Only at WorthingtonMillwork.com

Fiberglass columns are one of the most popular types of architectural columns on the market. They are indistinguishable from wood alternatives and, unlike wood products, have proven to last a lifetime. You may be surprised to learn just how many buildings you've admired have been made using the superior choice of fiberglass columns over wood or stone.

Fiberglass columns come in many unique shapes and sizes to fulfill any application and design. Our exclusive Column Builder Tool can show you the wide variety of options to choose from so that your project can be as classic, sophisticated, or modern as you've envisioned it to be.

Don't take the risk with YOUR columns!

...they can even be used as a functional enhancement to your interior décor.

Columns can be used to add structure and style to any home, porch, or entryway. While they are often used to hide and protect structural supports or replace deteriorating elements, they can also be applied in many different ways. Columns can be split against a wall, used inside or around corners, and they can even be used as a functional enhancement to your interior décor.

Zero Maintenance

Fiberglass columns are essentially maintenance-free. They are not susceptible to rot and insect damage like their wood counterparts.

Customization

Fiberglass columns can be square or round, tapered or non-tapered, and can be paired with many different capitals and bases. You can build a column that is truly unique for your project!

Durability

Fiberglass is the superior choice when being installed in the most demanding environments. Whether exposed to harsh climate conditions or excessive foot traffic, fiberglass will stand the test of time.

Style

Fiberglass columns can be wrapped around existing beams, flush mounted to walls, and even tucked in corners. The decorative options are endless. Increase the curb appeal and value of your property today.

Strength

Fiberglass columns can certainly be a decorative enhancement only, however their potential truly shines when used as load bearing structures. Fiberglass columns have a much greater load rating than similar sized wood columns.

In this article we highlighted the Worthington Millwork Column Builder Tool.

Save time and money by using it for your next project!

www.WorthingtonMillwork.com

Worthington Millwork has been committed to selling the highest quality American Made architectural products to the commercial and residential industry for over 30 years. This commitment to such high quality standards and beliefs is what has helped Worthington to be successful and has also set the benchmark for the architectural products industry as THE source of high quality. All of our products are authentic and American Made which further ensures the excellence as we are able to hold high quality control standards on each and every part that leaves our facilities. We feel that this is our primary responsibility to our clients, which helps us hold up to their high expectations, as we guarantee exceptional integrity of each and every product we make. No matter if you are installing crown molding in a single bedroom of a house, or a balustrade system on the exterior façade of a 25 story project, Worthington has the capacity, knowledge, and experience to make your project run as smooth as possible. We stay true to the belief that we make each part one at a time and we will sell them one at a time. With that mentality and corporate cultural belief we stand firm in saying that our products are to be used when only the best will do.
